The skating rink was crowded again last night. The old craze seems to have revived.

Large stock of fine perfumes just received at Monmonier's.

Bisbee is reported quite lively in consequence of the orders to increase the force.

Just received, a fresh lot of cranberry sauce, at Sydow & Kieck's. 7

Hoff, of Tucson, was in the city yesterday rustling for his windmill. He left last evening.

Pictures, picture frames, mouldings and artists' materials at Monmonier's.

McKee Rainey was in the city yesterday sizing up our residents on the Thanksgiving turkey problem.

You can get something good to eat at Mining Exchange Hall to-morrow night.

The ladies of the M. E. church will give an oyster supper at Mining Exchange Hall next Wednesday evening, November 20th. All are cordially invited.

Several drummers are in the city trying to convince our residents that they want something in their lines of goods.

Good reports of Turquoise district continue to come in. Undoubtedly these mines are increasing in extent and value every day.

Stevenson & Walker are the authorized agents for Louisiana lottery tickets in this city. By investing \$1 you have a chance of winning a fortune.

Some one has suggested that a new map of Arizona should be made with Tucson in the center and the map labeled "Tucson and Its Surroundings."

One hundred and eighty-eight witnesses have been summoned in the Wham robbery case and the end is not yet. Poor Graham county! Happy Tucson.

C. C. Fitzgerald, of the International Smelting Works, returned to El Paso last Sunday. He is confident that the mines of Turquoise district can not be equaled in the Territory.

The Sphere.

Our boys had a practice game of ball last Sunday, just to keep their hand in. It is reported that the Huachuca are making preparations to come over to this city on Thanksgiving Day and play a friendly game. We hope that the report is true and that a game can be arranged for that day. The Herald says that Phoenix wants to have a tournament at Tucson with the nines at that place and our boys. This is all right, but what's the matter with having the tournament in this city? Are Phoenix and Tucson the only two towns in the Territory, or are we so completely isolated that there is grave danger in attempting to hunt us up? Tucson is getting a pretty large slice of the cake now and it strikes us that as our boys went all the way to Phoenix to get salted the Phenicians should return the compliment, not that we have anything against Tucson, but our boys want to play on their own diamond and return the salted act with variations, if possible. The extra expense of coming on to this city would be small and our visitors would be regally treated. It isn't far for Tucson to come and in all probability Bisbee and Camp Huachuca would enter the tournament and this arrangement would be satisfactory all around.

Promising Mines.

From T. A. Jones, who has been out to the Noon district, the Herald learns that the mining outlook in that section is becoming more promising each day. He says Lavery & Dougherty are opening up a splendid mine, about six miles west of the St. Patrick. Their ledge extends across the line into Sonora, and they have located and denounced other claims upon it in that State. Mr. Jones' mine, the King Solomon, is an extension of the Lavery & Dougherty mine, on the American side, and promises to become a good ore producer. George B. Rice is in partnership with him in the King Solomon and they are pushing work vigorously. —Nogales Herald.

Relocations by Wholesale.

We are credibly informed that parties left this city early Sunday morning last for Bisbee with the intention of relocating the Neptune group of mines, in Warren district. These relocations are made, we understand, on the theory that the Neptune mining company is a foreign corporation and that it has no legal standing in this Territory by reason of a failure to comply with our laws in the filing of a certificate of incorporation and the appointment of an agent to represent it in the Territory and that under the statute all its actions are void.

At the oyster supper to be given by the ladies of the Methodist church at Mining Exchange Hall on Wednesday evening Messrs. Carpenter and Herrera will each render a vocal solo. Go around and fill up on two or three dozen raw with the ladies.

The Tucson Star publishes the names of nearly two hundred men as witnesses in the Wham case. The prosecution got in some very damaging testimony Saturday, and if it cannot be broken down it is altogether likely that the defendants will be convicted.

The condition of Mr. Eugene Middleton is constantly improving and he will soon be able to take outdoor exercise each day. He is receiving the constant and watchful care of his mother, who has been at his bedside ever since his arrival here. —Florence Enterprise.

Secrets of the Endowment House Exposed.

To those who believe that Mormons are good citizens we recommend the perusal of the following, which is taken from a Salt Lake dispatch:

In preparation for the coming municipal election many applications for naturalization have been made here recently, and as objections are being made to the admission of persons accepting the faith of polygamy and adhering to other Mormon tenets, today was set by the court to hear the question. The attorneys for the liberals asserted that no Mormons who had taken refuge in the Endowment House could be a good citizen, and testimony was ordered regarding the nature of these oaths. John Reed, who went through the Endowment House in 1886, and was required to take an obligation, which compelled him to deny every doctrine of the church, especially in opposition to the United States. He was also required to take an oath to avenge the blood of Joseph and Hiram Smith on this nation, and to teach this to his children and children's children to the latest generation. Martin R. Wardell, who took a similar oath about the same time, said he was told if he revealed any secrets his throat would be cut and his bones torn out. He saw the death penalty inflicted on a man named Green, a member of the church, and when some of the members of the land murdered John W. Young they said if he did not shut up he would be served the same way. Andrew Calhoun swore to the same obligations and said he took the oath that his allegiance was to the Mormon church. Polygamy was a command of God and all must endorse it or be damned. The teaching of the church is hostility to the laws of the land. Calhoun had heard the leaders of the church pray for the overthrow of the United States government. It is dangerous for Wilford Woodruff, the present head of the church, to do all this. All the witnesses spoke of murders they had either seen or heard of in consequence of these oaths.

Mr. George H. Dolly, recently of Tombstone, has leased the building used as a saloon in connection with the Fryer Hotel, in Casa Grande, and will establish an agricultural implement depot therein. The relocation of the large body of land under the Florence canal will require a quantity of the most improved machinery, which Mr. Dolly purposes supplying. —Florence Enterprise.

We are informed that the name of Nogales, Mexico, is to be changed to Ciudad Dublan, in honor of the Mexican Secretary of the Treasury. The name of New Laredo is also to be changed to Ciudad Roseros Babilas. They may change the name of Nogales, Sonora, but it will be hard to wipe out the beautiful and convenient name "Nogales" the Spanish for walnuts. —Nogales Herald.

In a recent article in the Youth's Companion, on "How to cure a cold," the writer advises a hot lemonade to be taken at bed time. It is a dangerous treatment, especially during the severe cold weather of the winter months, as it opens the pores of the skin and leaves the system in such condition that another and much more severe cold is almost certain to be contracted. Many years constant use and the experience of thousands of persons of all ages, has fully demonstrated that there is nothing better for a severe cold than Chamberlain's Cough Remedy. It acts in perfect harmony with nature, relieves the lungs, liquefies the tough, tenacious mucus, making it easier to expectorate, and restores the system to a strong and healthy condition. Thanksgiving Day.

Whereas the President of the United States has designated the twenty-eighth day of November as a day of National Thanksgiving and prayer in the following

PROCLAMATION:

"A highly favored people, mindful of their dependence on the bounty of a Divine Providence, should seek a fitting occasion to testify their gratitude and ascribe praise to him who is the author of their many blessings. It behooves them to look back with thankful hearts over the past year and bless God for his infinite mercy in vouchsafing to our land enduring peace to our people freedom from pestilence and famine; to our husbandmen abundant harvest, and to those that labor recompense for their toil.

"Now therefore, I, Benjamin Harrison, President of the United States of America, do earnestly recommend that Thursday the 28th day of this present month, November, be set apart as a day of National Thanksgiving and prayer, and that the people of our country, residing from coast and inland, in their respective places of worship and give thanks to God, who has prospered us on our way and made our paths the paths of peace, and blessed Him to the day in our present and future good, making it truly one of thanksgiving for each reunited home circle as a nation at large.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this first day of November, in the year of our Lord 1889, and of the independence of the United States the 114th.

BENJAMIN HARRISON.

JAMES G. BLAINE.

Among the joys of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administered it to her own offspring and always with the best success. For sale by H. J.
